EDUCATION

CALIFORNIA STATE UNIVERSITY - FULLERTON

Fullerton, CA

Graduated - July, 2022

Bachelor of Science, Computer Science

PROFESSIONAL EXPERIENCE

TEAMMATEME

Remote, CA

Frontend Web Developer

OCTOBER 2023-Present

- Implemented Mixpanel tracking to track user conversion rates for AB-testing through the company's home page and to track user journeys across the companies web application.
- Added features to an internal admin dashboard that allowed for editing and deleting multiple users. Making it so that we can easily work with our database.
- Fixed minor UI bugs throughout the company's web app.

RELION

Remote, CA

Full Stack Engineer

JAN, 2023-October, 2023

- Designed and developed a custom dashboard connecting multiple 3rd party APIs alongside a database to display the company's previous ticket history.
- Constructed a "smart-search" method which retrieves previous relevant ticket history based on tags for a current ticket. Allowing helpdesk to see possible solutions based on previous tickets.

CALIFORNIA STATE UNIVERSITY - FULLERTON

Fullerton, CA

Research Assistant

JAN, 2021- Sep, 2022

- Created and maintained a code base to handle tasks such as downloading and validating data from multiple APIs, run tests between different evolutionary models to analyze their performance against specific metrics, and visualize research findings.
- **Southern California Conference for Undergraduate Research (SCCUR)** - Co Presenter
- **National Conference of Undergraduate Research (NCUR)** - Main Author

PROJECTS

Road Trip Playlists

- Developed a full-stack app that incorporates Spotify's Web API and Google Maps' Javascript API to automatically assemble playlists based on the time needed to travel towards a location and the user's spotify listening data.
- <https://github.com/JuanRamirez2000/roadtrip-playlists>

SKILLS

Languages

Javascript, Typescript, SQL

Technologies/Frameworks

ReactJS, TailwindCSS, MUI, NextJS, tRPC, ClerkJS, Prisma, ExpressJS, Git, Google Cloud Platform, Vercel
